## Spring

*May I say, I like May,  
I wish everyday,  
Was a May kind of Day,  
With growing grass,  
And buzzing bees,  
With blowing breezes,  
And flowering trees,  
May is such a blast!*

**Happy Mother's Day!** BMS hopes all our moms were pampered and had a stress free day.

Your stars have had a wonderful month of discussing the weather planting and Easter.

This month our Stars will be learning about fairytale, and bugs.

Please be advised that the weather is getting warmer and it is very important to drive slowly in the driveway, to be sure to keep ice packs in your Stars lunch bags and please remember no open toe or shoes with hole are allow at school.

## How To Keep Your Kids Safe At Every Summer Barbecue

Summer is right around the corner, and with that comes pool parties, the great outdoors and cookouts galore. But those gatherings can also straddle the line of safety for kids, especially when grills get involved.

The good news? You and your family can enjoy every summer social while staying protected from open flames and hot surfaces. Here are 4 quick tips to stay safe at a barbecue:

### 1. Create a barbecue-only zone:

Your child should not be close to the barbecue once it's turned on. Have your child draw a border on the pavement with chalk around the barbecue area (3 feet on all sides)

### 2. Keep An Eye On The Kiddos:

Whether it's you or another trusted adult, make sure children understand that a grill is an adult-only zone (unless they get special permission). Play special games away from the grill and give them some errands to do.

### 3. Put The Grill In The Correct Position:

Be sure to follow all instructions that come with the grill and only use it outside. Plus, set your barbecue up away from deck railings, low-hanging branches and other flammable materials, and keep a fire extinguisher close by.

### 4. Always Clean It Up:

One of the best ways to keep your kids (and yourself!) safe during barbecues is to make sure your grill is in tip-top shape! Frequently remove grease and fat buildup, and once your grill is cooled, clean thoroughly with a non-wire brush.
